LOVE & PEACE International Mail Art Exhibition 2021

The Salon Des Artistes Independants, Whose motto is Anti Academism. Started in France in 1884. Inheriting its spirit and thought, We founded Nihon Bijyutsukai (Japan Art Association) in 1947.

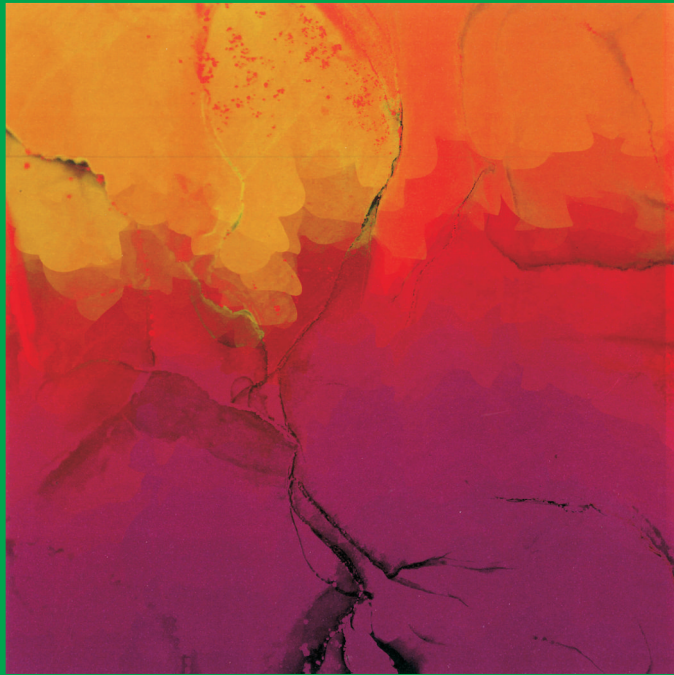

Since then, We have exhibited our works every year under the name of Japan Independent Exhibition. We have held this exhibition disregarding commercialism and guaranteeing free and equal participation for artists. Now, We are facing various kinds of problems around the world: War, civil war, terrorism, refugees, and so on. We haven't been able to banish hatred and segregation. For example, here in Japan, We are still struggling with suffering and tribulations Caused by the Great East Japan Earthquake and Fukushima Nuclear Accident. Furthermore, there is a political movement urging Japanese involvement in wars, Changing our peacefl constitution which has been preserved since the end of World WarTwo. Of course, these are only a few examples relating to Japan.

We can all the artists of the world t ocreate messages of love and peace. We hope to collect your works and exhibit them to spread messages of love and peace. We will be very glad if you send us your work drawn on post card.
